

CAPTIAL DAY OUT: Dover Ladies Luncheon Club at the V&A in London

■ DOVER LADIES LUNCHEON CLUB

BEES TALK: On March 25, 70 members enjoyed an entertaining and informative talk about gardens and bees given by guest speaker Dr Mick Lynn. Dr Lynn first showed us the protective outfit bee keepers wear to protect from stings, and then went on to tell the audience about their life cycle and where and how they like to live. He described, with pictures, the various plants and flowers that will attract bees to a garden in order for them to collect nectar and for pollination to take place. The talk finished with a lively question and answer session and a vote of thanks to the speaker. Prior to the talk an excellent three course meal was served with coffee and chocolates.

LONDON TRIP: The club had a most successful

trip to London 48 members and friends attended a special exhibition at the V & A of wedding dresses offering a panorama of fashion over the last two centuries 1775 - 2014. On display were the most romantic, glamorous and extravagant wedding dresses ever displayed. Ladies also enjoyed a visit to Room 91 where more than 3,000 items of jewellery tell the story about enamelled watches to diamond tiaras, jewels by Cartier to animals by Fabergé. The gallery explores how jewels have been not only at the centre of fashion, but of the deepest human emotions. Coffee, Lunch and Afternoon Tea were available to energize the group to keep enjoying the magnificent exhibits. Departing at 4.15pm. a sleepy coach safely back in Dover by 7.30pm

New members are most welcome and for more information please visit our website, which can be found at: www.doverladiesluncheonclub
